Community ⟷	**INTENDED BENEFICIARY**	⟷ **Campus**

Service ⟷	**INTENDED FOCUS**	⟷ **Learning**

Community Service/Volunteerism
Engaging in activities to benefit others or one's community; such activities may or may not involve structured training and reflection.

Philanthropy/Fundraising
Collection of resources (e.g., money, food, clothing, etc.) to benefit charitable organizations or agencies.

Political Engagement
Developing one's own political understandings and views that may be expressed by challenging political ideas of others, voting, and/or influencing policies or political positions.

Service-Learning
Involves intentionally linking service activities with student learning objectives to mutually benefit the community partner and student(s) by addressing real community needs while students apply what they have learned through active engagement and reflection.

Community-Engaged Research
Creation of new knowledge in collaboration with or on behalf of a community partner that contributes to student learning within the academic discipline while also strengthening the well-being of the community by working to solve or understand an issue of public concern.

Social Entrepreneurship/Social Innovation
Combining innovation, resourcefulness, and opportunity to address critical social and environmental challenges through the development of business models, products, or services.

Activism/Advocacy/Awareness Raising
Involves organizing to bring about political or social change or to show support for, bring awareness to, or promote a particular cause or policy.

Community-Engaged Clinical Experiences/Field Education/Internships
Provides community co-education and hands-on experiences that enhance student learning and understanding of social or political issues relevant to a particular area of study.

Civic Learning
Acquiring knowledge of community, government, social issues, or political issues with or without the application of the knowledge.
